

FlowVeda Reset

Ayurveda DTC

A wellness brand improved trust with creator-led routines and objection handling.

Challenge

The brand needed stronger cold-traffic communication, clearer product proof, and mobile-first creative assets that could be tested quickly across paid social and commerce placements.

Creative System

Growth Revibe built a testing matrix across hooks, offer frames, product hierarchy, UGC-style proof, and landing-page message match. Each concept was prepared for rapid iteration instead of one-off campaign use.

Measured Outcomes

1. 3.1x ROAS
2. +44% video watch rate
3. 21 hooks tested

Scope delivered: creative strategy, static ads, short-form video direction, offer testing, and reporting notes.

Prepared by Growth Revibe creative strategy team. Case study 08 of 20.
