

Myoovi Heat Patch

Wellness DTC

Pain-relief wearable brand scaled cold traffic with clearer proof-led creative.

Challenge

The brand needed stronger cold-traffic communication, clearer product proof, and mobile-first creative assets that could be tested quickly across paid social and commerce placements.

Creative System

Growth Revibe built a testing matrix across hooks, offer frames, product hierarchy, UGC-style proof, and landing-page message match. Each concept was prepared for rapid iteration instead of one-off campaign use.

Measured Outcomes

1. 3.8x blended ROAS
2. 41% lower CPA
3. +62% first-order revenue

Scope delivered: creative strategy, static ads, short-form video direction, offer testing, and reporting notes.

Prepared by Growth Revibe creative strategy team. Case study 01 of 20.
